1. The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 8, Japanese 60-238202 is representative of the closest art of record. Figure 5 shows a shank and tip 10a, 10b, (i.e., tip and adapter) made of steel and a body portion 11 made of cemented carbide alloy, which constitutes a composite body. Note that cutters 2 are mounted in the body. Turning to the English abstract, the various parts have "faces to be butted are brazed to each other." Claim 1 requires that the body is formed to surround at least a portion of the tip and adapter. Since Japanese '202 shows that the portion have faces which are butt brazed together, it lacks, and there is no suggestion to provide it with, the body surrounding at least a portion of the tip and adapter. Claim 8 sets forth a connecting member which surrounds the metal bar and composite bar. Since the pieces of Japanese '202 are butt brazed together, it lacks, and there is no suggestion to provide it with, a surrounding connecting member as set forth in claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-26 are allowed.

3. It is noted that the IDS of 1-23-04 was not properly completed, and that the foreign references were not provided. The examiner uncovered all of the foreign references while conducting his search, so all of the appropriate documents have been cited on the PTO-892. No further action by Applicant on this issue is needed.

4. Any inquiry concerning the content of this communication from the examiner should be directed to Daniel Howell, whose telephone number is 571-272-4478. The examiner's office hours are typically about 10 am until 6:30 pm, Monday through Friday. The examiner's supervisor, Andrea Wellington, may be reached at 571-272-4483.

In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office actions directly into the Group at FAX number 703-872-9306. This practice may be used for filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a USPTO deposit account. Please identify Examiner Daniel Howell of Art Unit 3722 at the top of your cover sheet.
